- Work on project

Wise people prefer to benefit from constructive criticism rather than be ruined by false praise.

Shiv Khera

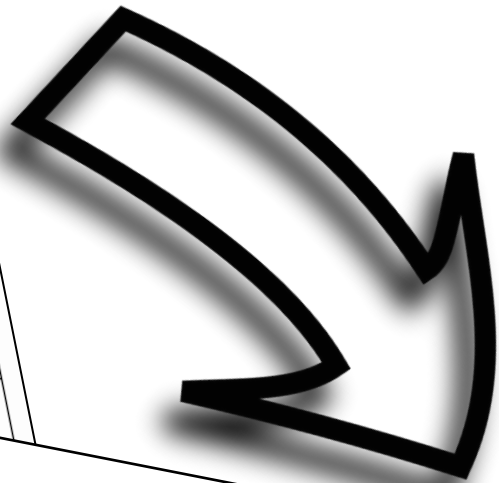

Journal Entry

Respond to the quote from Shiv Khera – do you agree, disagree?

Does it matter who is giving criticism or praise? How it is given?

Critique's name

Task	Sub-Task	APCSP Explore Task Practice				Name	Comments
		Great	Good	Exists	Missing		
1	Identifies computing innovation	3	2	1	0		
	Provides an illustration	3	2	1	0		
	Demonstrates purpose, function or effect	3	2	1	0		
2a	Identifies computing innovation	3	2	1	0		
	Describes intended purpose or function	3	2	1	0		
	Describes how the artifact illustrates purpose or function	3	2	1	0		
2b	Describes the tools used to create artifact	3	2	1	0		
	Credits all sources	3	2	1	0		
	Describes process used to create artifact	3	2	1	0		
2c	Describes at least one beneficial effect of computing innovation	3	2	1	0		
	Describes at least one harmful effect of computing innovation	3	2	1	0		
	Names a societal or cultural group effected by computing innovation	3	2	1	0		
2d	Describes the data used by the computational innovation	3	2	1	0		
	Describes how data is collected (input) by the computational innovation	3	2	1	0		
	Describes what is produced (output) by the computational innovation	3	2	1	0		
	Describes the transformation of data by the computational innovation	3	2	1	0		
	Describes at least one data concern (storage, privacy, or security)	3	2	1	0		
2e	At least 3 credible references with at least 2 since May 2018	3	2	1	0		
	In text citations throughout writing	3	2	1	0		
	Full bibliography with all required elements	3	2	1	0
