

TUESDAY, JANUARY 22, 2019

- Warm-up

- Evaluate each expression for the given value:

$|x|$ for $x = 9$ $|9| = 9$
 $|x|$ for $x = -9$ $|-9| = 9$
 $|x + 1|$ for $x = 9$ $|9 + 1| = |10| = 10$
 $|x + 1|$ for $x = -9$ $|-9 + 1| = |-8| = 8$

- Piecewise-Defined Linear Functions

At the Supermarket

Lesson 8-5

Transforming the Absolute Value Parent Function

Objectives:

Content: I will graph absolute value functions.

Social: I will use technology to examine patterns.

Language: I will write my conclusions clearly using correct vocabulary.

Lesson 8-5

Transforming the Absolute Value Parent Functions

page 143

- Instructions:

- tear pages 143-147 out of your book and store your book under your desk
- get a chromebook and go to desmos on google chrome

- Goal:

- get through The lesson 8-5 practice before the end of 6th period

Objectives:

Content: I will graph absolute value functions.

Social: I will use technology to examine patterns.

Language: I will write my conclusions clearly using correct vocabulary.

Conclude lesson 8-5

- Vertical Transformations:

$$\updownarrow f(x) = |x| + k$$

positive = up \uparrow
negative = down \downarrow

- Vertical Stretch:

magnitude
(bigger/smaller) $f(x) = k|x|$

if k is negative
reflects over x
if $k > 1$ more
steep
if < 1 more wide

- Horizontal Transformations:

$$\longleftrightarrow f(x) = |x + k|$$

backwards $\ddot{}$

positive = left \leftarrow
negative = right \rightarrow

Bright

Unit
Sheet

Parent
function:

$$f(x) = |x|$$

Objectives:

Content: I will graph absolute value functions.

Social: I will use technology to examine patterns.

Language: I will write my conclusions clearly using correct vocabulary.

Activity 8 Practice – page 149

- On your own paper - individually

linear
function

$$f(x) = mx + b$$

↖ slope
↖ y-intercept
(x=0, y=?)

Slope
rate of change

$$\frac{\Delta y}{\Delta x}$$

Domain
input
x's
Range
output
y's

Objectives:

Content: I will graph absolute value functions.

Social: I will use technology to examine patterns.

Language: I will write my conclusions clearly using correct vocabulary.
