- 30 minutes to work on project
- 30 minutes to take test
- Time to brainstorm about explore task

Test

MY HORROR STORIES DON'T SEEM TO BE PLAYING WELL TO THE YOUNGER GENERATION.

...BUT WHEN HE LOOKED FOR THE MISSING SEMICOLON, IT WAS THERE!

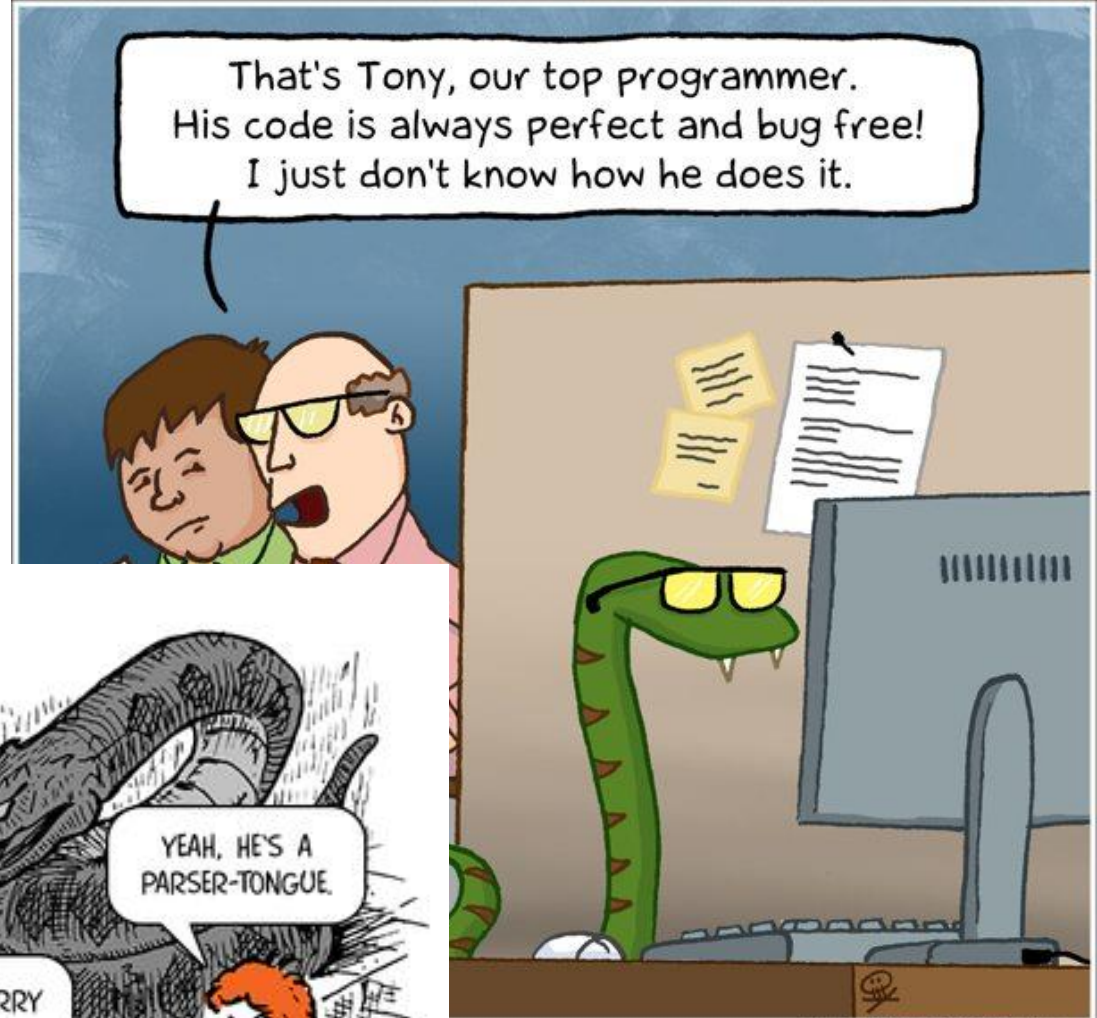

I BLAME PYTHON.

That's Tony, our top programmer.
His code is always perfect and bug free!
I just don't know how he does it.

Brainstorm Ideas for Explore Task

- Things to remember
 - A benefit AND harm
 - for specific types of people (society, economic or culture)
 - Data concerns
 - storage, privacy or security
 - consumed, transformed, etc
 - New enough to have recent sources
