

Wednesday, September 26, 2018

- Warm-up

- Describe the following scatterplot

Objectives

Content: I will use linear regression to determine patterns and make predictions about situations.

Social: I will work well with my group and stay on track with them.

Language: I will write full sentences, explaining my thoughts in context with the problem.

- What does it tell us about the association between homework completion and test scores?

- Check Homework
- Monopoly Lab

Preview of Big Ideas

- **Describe associations**
- **Meeting conditions**
- **Correlation Coefficient**
- **Linear regression equation – in context**
 - **slope?**
 - **y-intercept?**
- **Residuals**
- **R^2**

Objectives

Content: I will use linear regression to determine patterns and make predictions about situations.

Social: I will work well with my group and stay on track with them.

Language: I will write full sentences, explaining my thoughts in context with the problem.
