

Exploring Innovations

9/6/18

Journal Question:

Think about your typical day. How often do you think that your image has been captured by a surveillance camera? List all of the places where your image may have been captured. Also, consider what you have done in the past week. What data might have been collected about you somewhere over the past week?

Objectives

Content: I will understand the consequences of Internet usage on personal privacy and security.

Social: I will work well with a partner to explain an issue.

Language: I will read carefully and summarize the information in a clear way.
